

Military expenditure - Report

- Link:
 - <https://ourworldindata.org/grapher/military-spending-sipri#sources-and-processing>

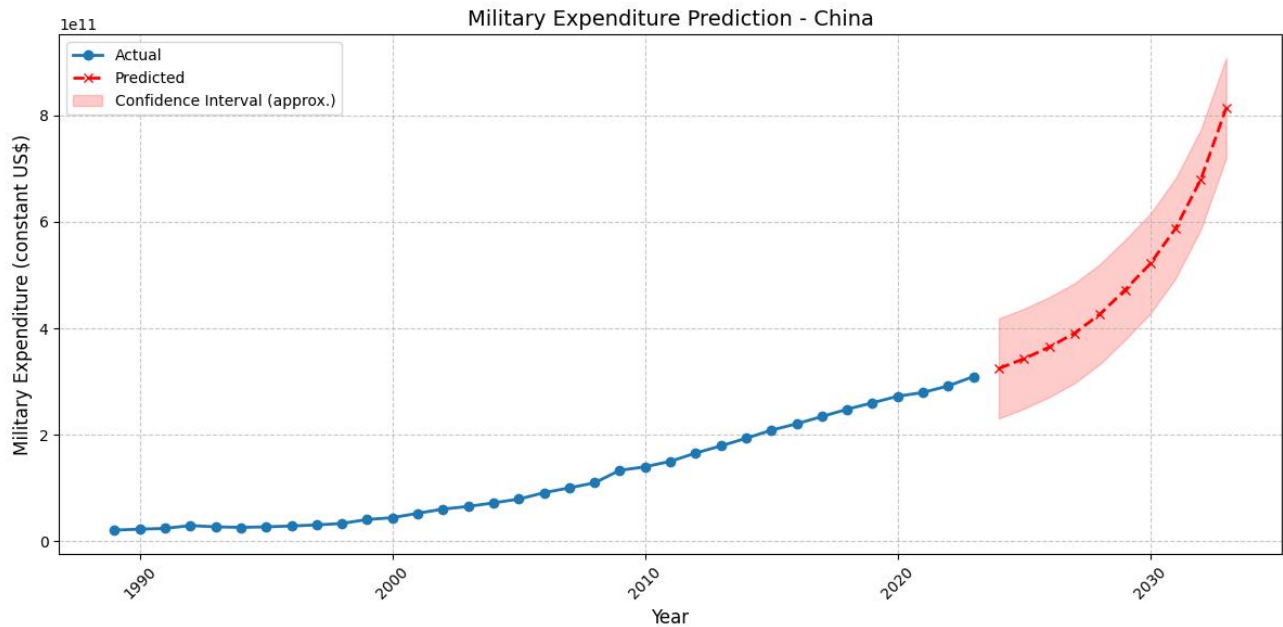

Country: Canada

For Canada, the last recorded expenditure in 2023 was \$27,257,029,000.00. The model predicts an expenditure of \$28,649,263,104.00 for 2024, representing a change of \$1,392,234,104.00 (5.11%). This suggests a potential increase in military expenditure.

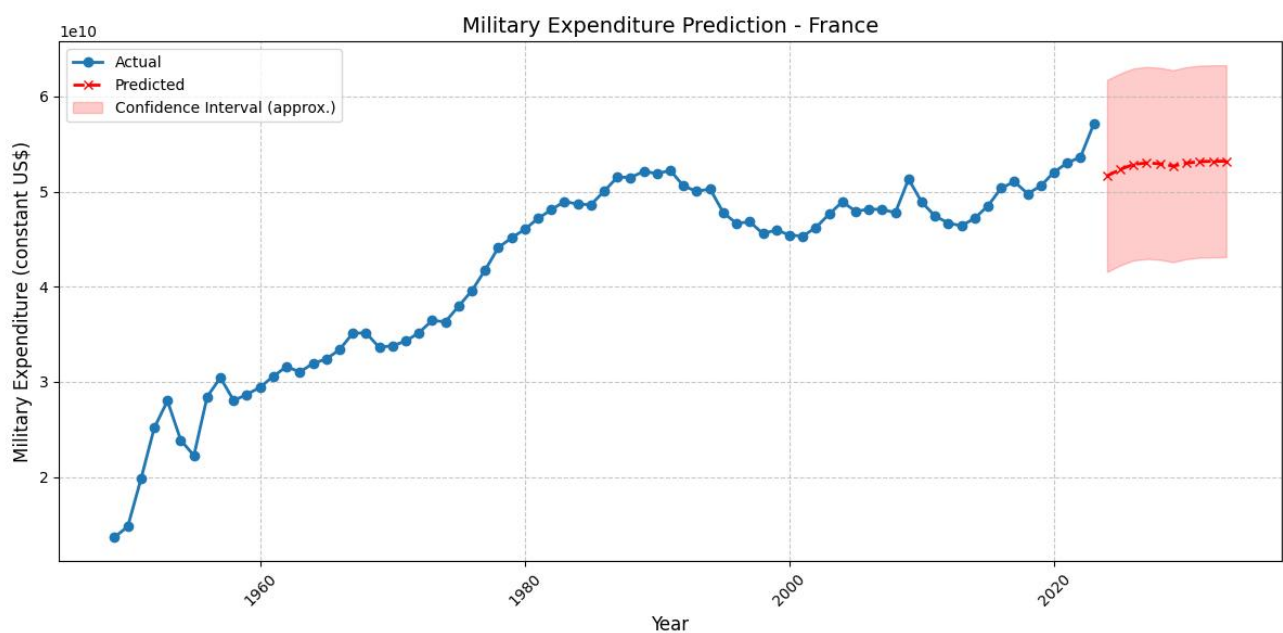

Country: China

For China, the last recorded expenditure in 2023 was \$309,484,320,000.00. The model predicts an expenditure of \$328,011,841,536.00 for 2024, representing a change of \$18,527,521,536.00 (5.99%). This suggests a potential increase in military expenditure.

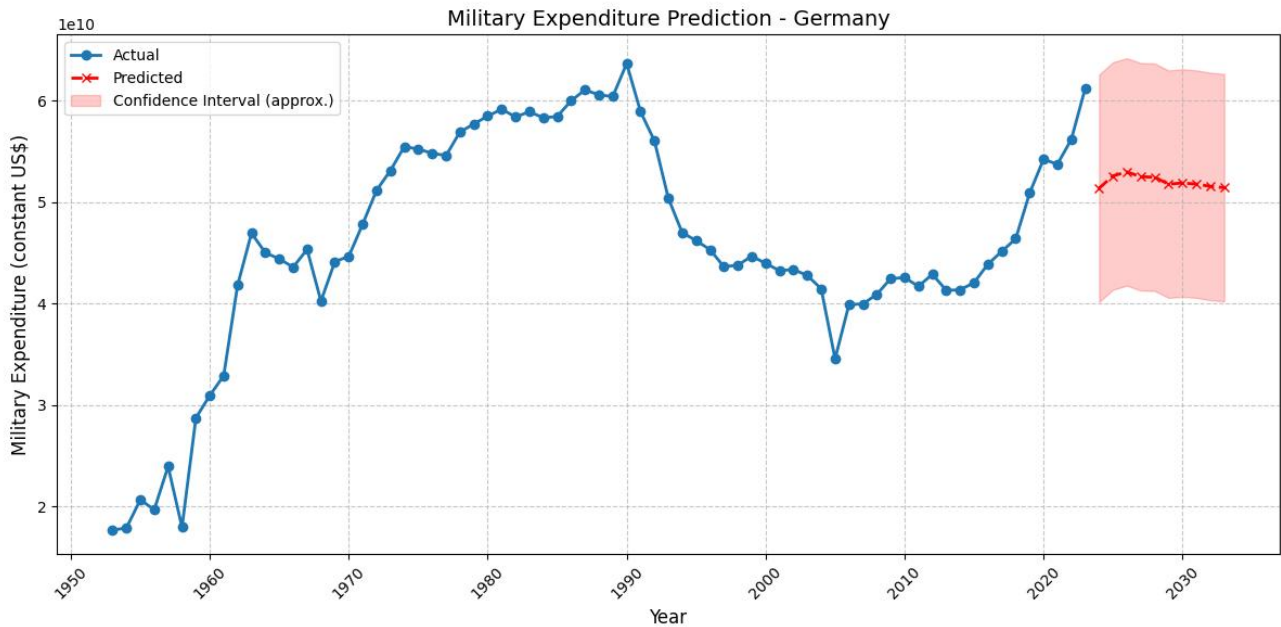

Country: France

For France, the last recorded expenditure in 2023 was \$57,124,717,000.00. The model predicts an expenditure of \$52,221,890,560.00 for 2024, representing a change of \$-4,902,826,440.00 (-8.58%). This suggests a potential decrease in military expenditure.

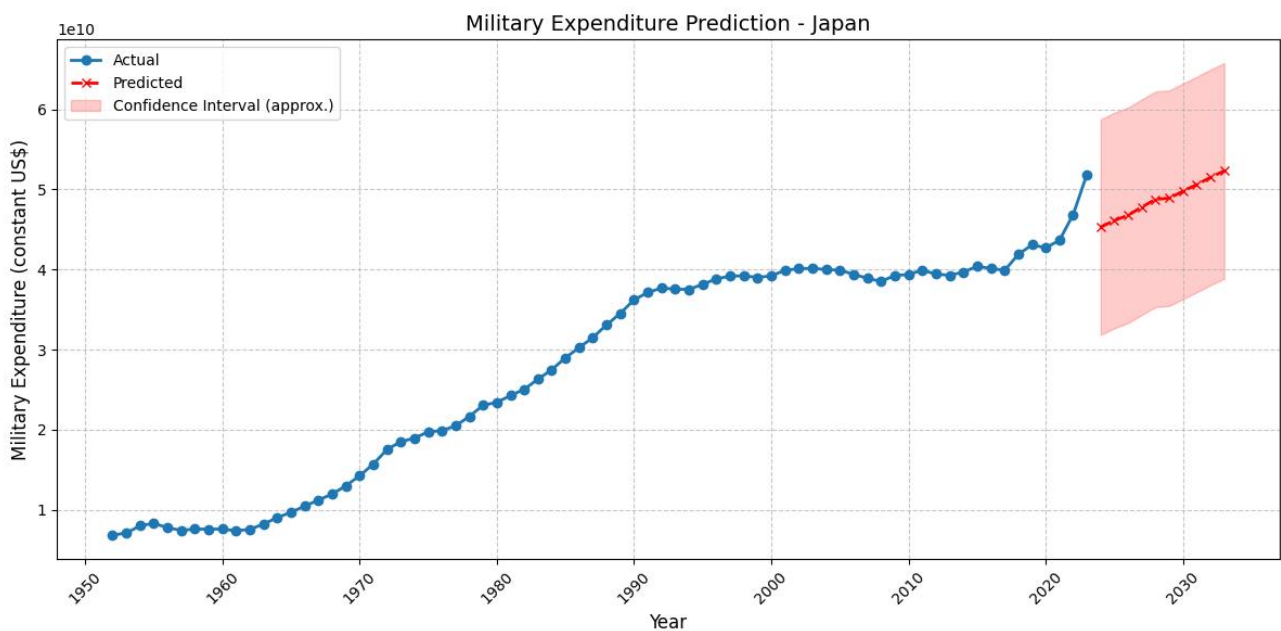

Country: Germany

For Germany, the last recorded expenditure in 2023 was \$61,187,424,000.00. The model predicts an expenditure of \$52,061,528,064.00 for 2024, representing a change of \$-9,125,895,936.00 (-14.91%). This suggests a potential decrease in military expenditure.

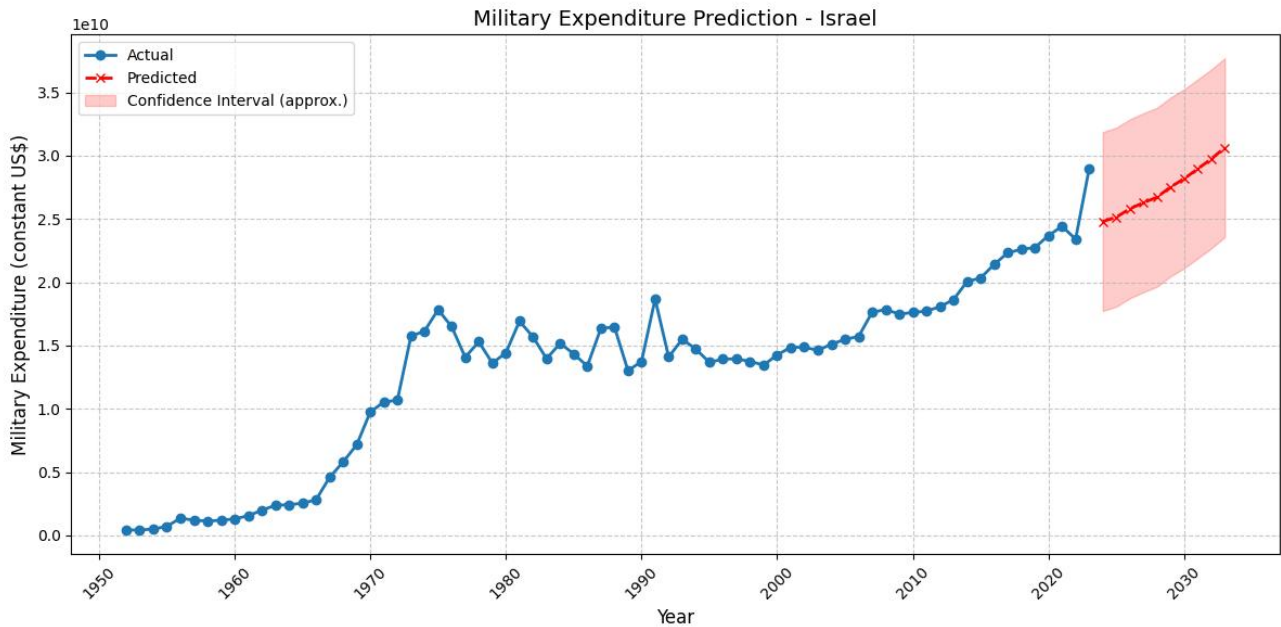

Country: Japan

For Japan, the last recorded expenditure in 2023 was \$51,887,980,000.00. The model predicts an expenditure of \$44,281,905,152.00 for 2024, representing a change of \$-7,606,074,848.00 (-14.66%). This suggests a potential decrease in military expenditure.

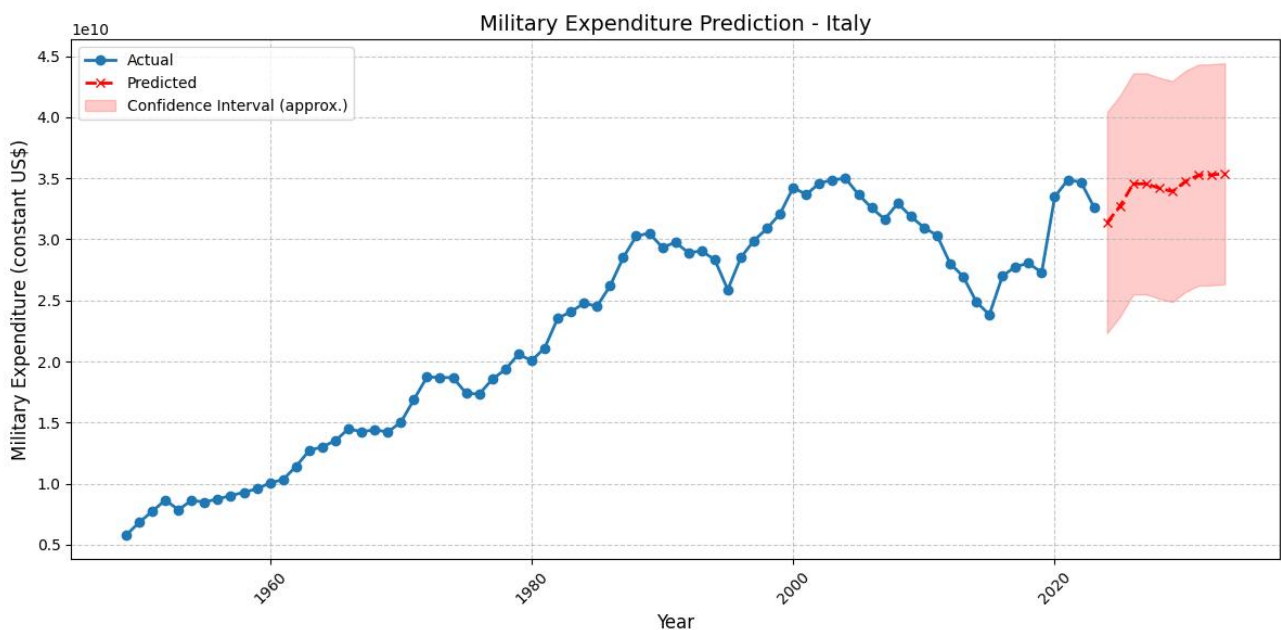

Country: Israel

For Israel, the last recorded expenditure in 2023 was \$28,956,834,000.00. The model predicts an expenditure of \$24,591,347,712.00 for 2024, representing a change of \$-4,365,486,288.00 (-15.08%). This suggests a potential decrease in military expenditure.

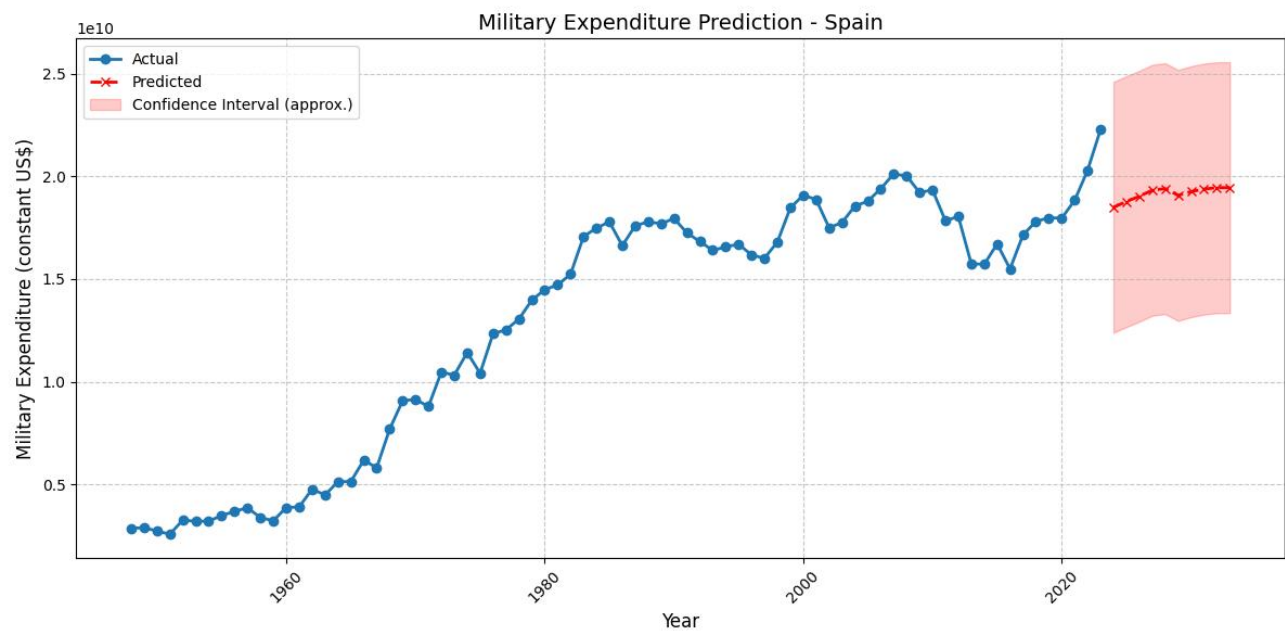

Country: Italy

For Italy, the last recorded expenditure in 2023 was \$32,634,774,000.00. The model predicts an expenditure of \$31,244,439,552.00 for 2024, representing a change of \$-1,390,334,448.00 (-4.26%). This suggests a potential decrease in military expenditure.

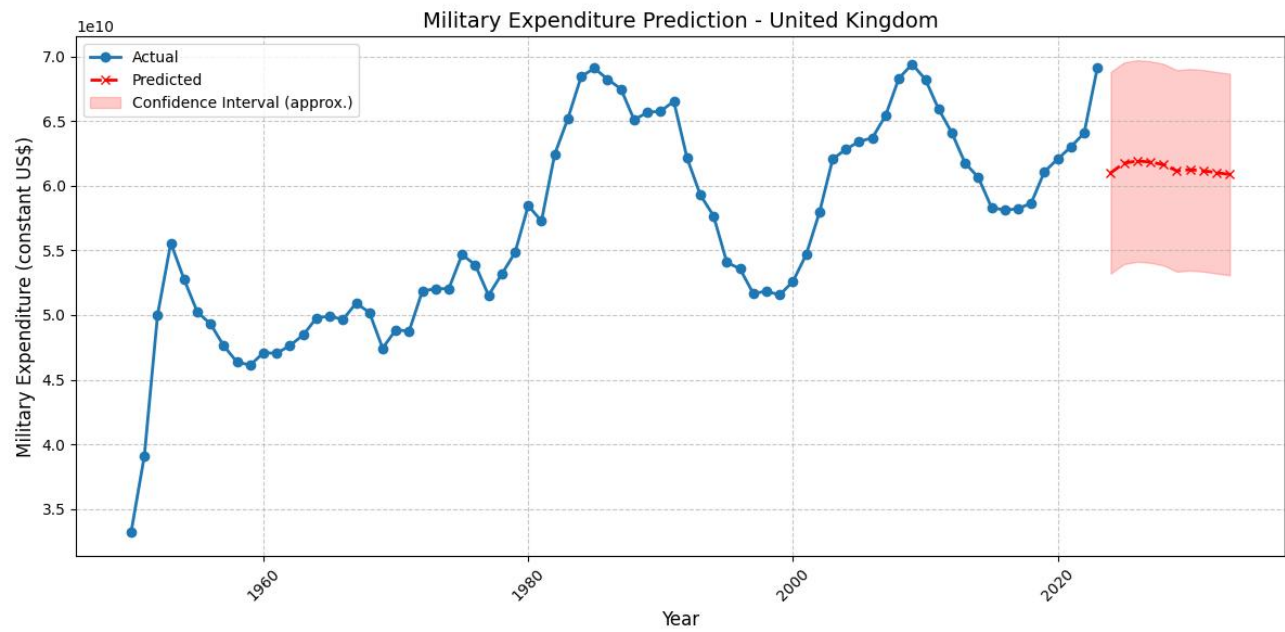

Country: Spain

For Spain, the last recorded expenditure in 2023 was \$22,293,187,000.00. The model predicts an expenditure of \$18,493,616,128.00 for 2024, representing a change of \$-3,799,570,872.00 (-17.04%). This suggests a potential decrease in military expenditure.

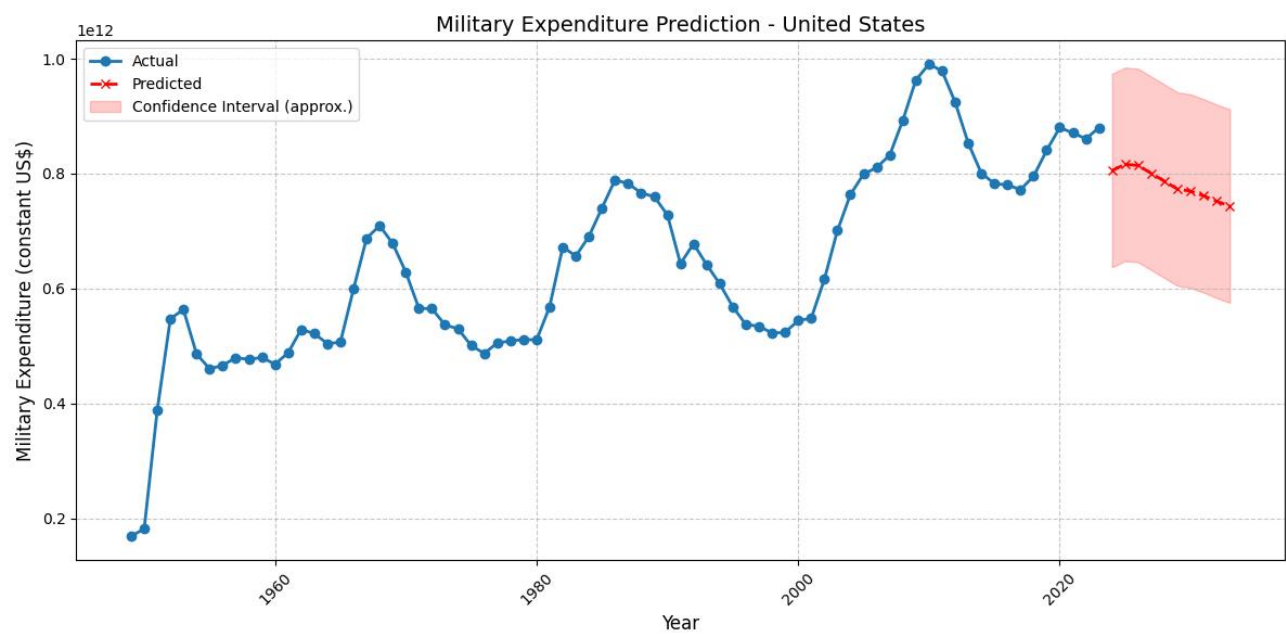

Country: United Kingdom

For United Kingdom, the last recorded expenditure in 2023 was \$69,153,235,000.00. The model predicts an expenditure of \$61,179,494,400.00 for 2024, representing a change of \$-7,973,740,600.00 (-11.53%). This suggests a potential decrease in military expenditure.

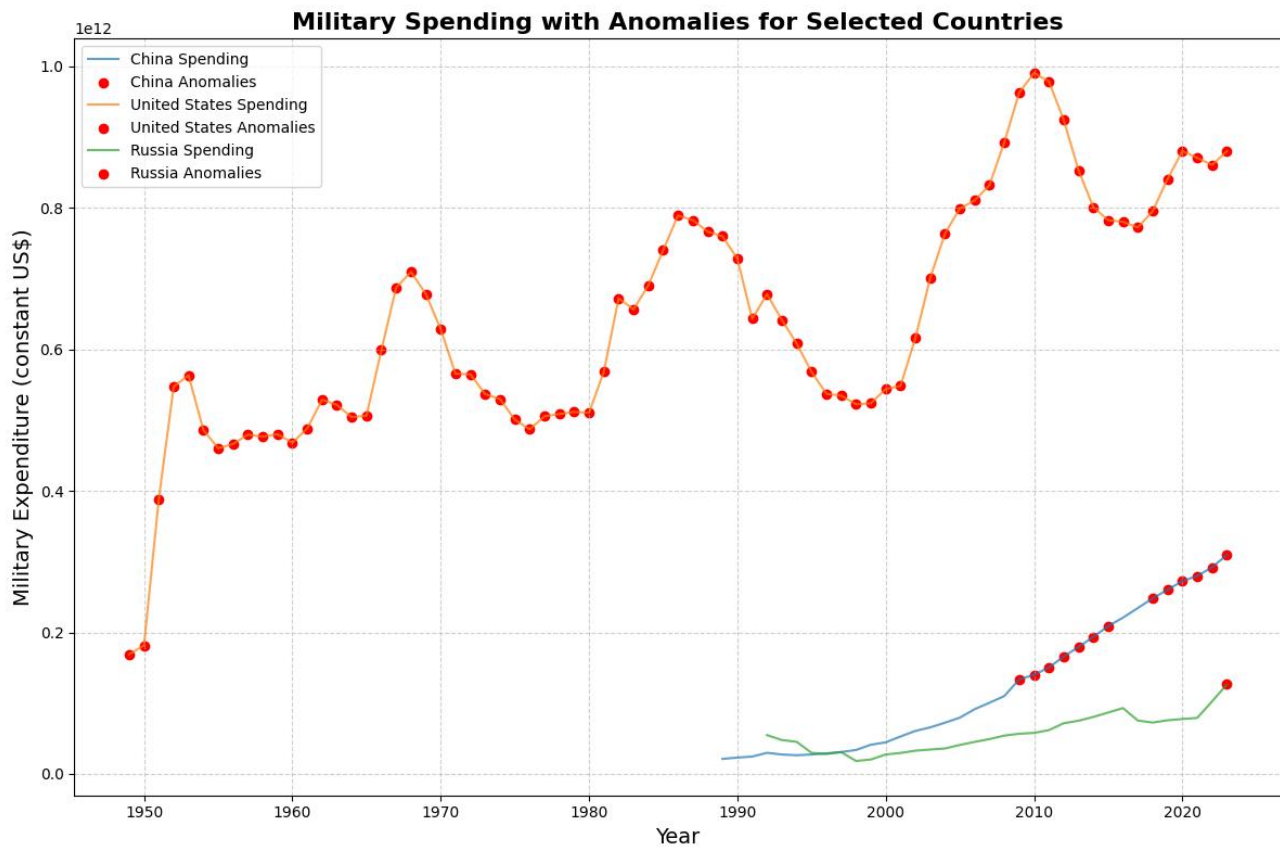

Country: United States

For United States, the last recorded expenditure in 2023 was \$880,070,560,000.00. The model predicts an expenditure of \$830,249,762,816.00 for 2024, representing a change of \$-49,820,797,184.00 (-5.66%). This suggests a potential decrease in military expenditure.

Military Spending with Anomalies for Selected Countries

- China:

- Experienced 13 anomaly/anomalies in military spending.
- Latest recorded military spending (2023): \$309,484,320,000.00 (constant US\$).
- Recent trend: Increasing military spending.

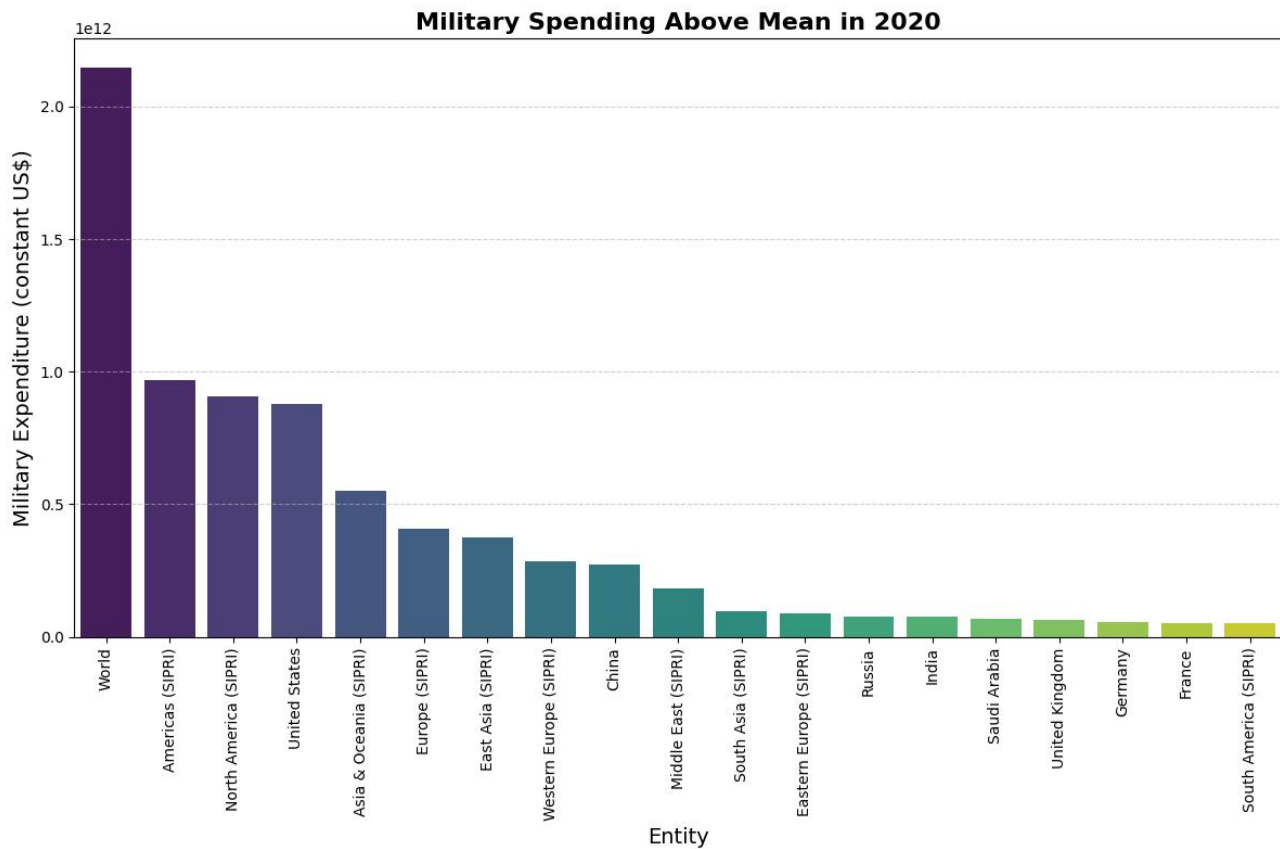

- United States:

- Experienced 75 anomaly/anomalies in military spending.
- Latest recorded military spending (2023): \$880,070,560,000.00 (constant US\$).
- Recent trend: Increasing military spending.

- Russia:

- Experienced 1 anomaly/anomalies in military spending.
- Latest recorded military spending (2023): \$126,473,355,000.00 (constant US\$).
- Recent trend: Increasing military spending.

Military Spending Above Mean in 2020:

In 2020, the following countries had military expenditures exceeding the mean (\$48,352,157,420.06):

- **World:** \$2,148,920,600,000.00
- **Americas (SIPRI):** \$968,243,700,000.00
- **North America (SIPRI):** \$906,450,800,000.00
- **United States:** \$880,185,250,000.00
- **Asia & Oceania (SIPRI):** \$549,652,100,000.00
- **Europe (SIPRI):** \$409,546,720,000.00
- **East Asia (SIPRI):** \$373,200,220,000.00
- **Western Europe (SIPRI):** \$283,022,600,000.00
- **China:** \$272,509,060,000.00
- **Middle East (SIPRI):** \$180,900,130,000.00
- **South Asia (SIPRI):** \$94,617,860,000.00
- **Eastern Europe (SIPRI):** \$89,873,105,000.00
- **Russia:** \$77,544,910,000.00
- **India:** \$77,085,470,000.00
- **Saudi Arabia:** \$68,182,163,000.00
- **United Kingdom:** \$62,064,890,000.00
- **Germany:** \$54,191,854,000.00
- **France:** \$52,053,620,000.00
- **South America (SIPRI):** \$49,550,890,000.00

World had the highest military expenditure at \$2,148,920,600,000.00.
